Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

This Office action is in response to Applicants' remarks received April 24, 2009.

Applicants' arguments have been fully considered and are deemed to be persuasive to overcome some of the rejections previously applied. Rejections and/or objections not reiterated from previous Office actions are hereby withdrawn.

Claims 13-16 are canceled. Claims 1-12, 17-24 are currently under examination.

Priority: The request for priority to NEW ZEALAND 521955, filed October 4, 2002, is acknowledged.

Objections and Rejections

Claims 1, 3, 9, 21 are objected to because of the following informalities: claims 1, 3, 9, and 21 recite the β -casein is comprised of at least 95% β -casein A². The claims should clarify if the 95% is by weight or by an appropriate unit. Appropriate correction is required.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-12, 17-24 are rejected under 35 U.S.C. 102(e) as being anticipated by McLachlan (US 20020166129).

The applied reference has 1 common inventor with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

McLachlan teaches a method of treating coronary heart disease in a human which comprises that the human ingests a milk having greater than 95% by weight of β -casein A² (p. 11 claim 1-6; claims 1-6, 9-11, 17, 19, 21-23). The milk is obtained from bovines (p. 11 claim 2; claim 12). McLachlan further teaches that the milk comprises approximately 100% by weight of β -casein A² (p. 11 claim 7; claims 1, 3, 21). The milk composition comprising β -casein A² can also contain additional supplements or be in the form of a powder (p. 4 [0089-0091]; claims 7-8, 18, 20, 24).

While McLachlan does not explicitly teach the limitations of cholesterol, LDL cholesterol, VLDL cholesterol, apolipoprotein B, or triglycerides, these limitations would inherently be reduced upon the administration of the β -casein A² for the treatment of coronary heart disease.

Upon consideration of Applicants' amendments and remarks, the Elliott et al. reference (WO 0100047; IDS) has been withdrawn.

However, the instant claims are believed to be anticipated by McLachlan, as noted above.

No claim is allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
